

Swedish delegations on Oktal Synthetic Environment's booth

It was a high pleasure for Oktal Synthetic Environment to welcome Swedish delegations on our booth at 46th International Paris Air Show, June 2005.

Wednesday, June 15th, 2005

André Joly, Oktal-SE's Business development, is receiving **Arne Hedén**, Brigadier General, Director of Air and Space Systems, FMV (in the middle) and **Mr Vall**, assistant of the Swedish Defense attaché in France (on the left)

Thursday, June 16th, 2005

André Joly is presenting Oktal-SE's activities to **Eva Lutta Kraft**, FOI (in the middle), in presence of **Commandant Tiberghien** (French army).

At the occasion of these visits, the overall activities of Oktal Synthetic Environment has been presented. This includes:

- Overview of the SE-Workbench for infrared, electromagnetic and acoustic simulation,
- Specific infrared simulation products new features: simplified sensor models and physical 3D mock-ups,
- Ongoing electromagnetic development projects on RCS computation, electromagnetic fields assessment, SAR imaging computation.
